BOULEVARD SYSTEM

PLAN GAINING FAVOR RAPIDLY
WITH CITIZENS AS DETAILS
ARE MADE PLAINER

The comment in the Evening News of January 23 on the proposed new boulevard system for Glendale that the City Trustees are considering aroused considerable comment and opinions were both favorable and otherwise, according to City Clerk Sherer and Manager Watson, some thinking the project rather ambitious for a city the size of Glendale. Many questions have been asked both personally and by letter and the citizens seem anxious to know all about it. Additional recommendations were made to the trustees at their meeting this week to the effect that all but vitally necessary street work be suspended for the next three years until the plans for the main boulevard extensions can be made. Unimproved streets could be graded and oiled, which would suffice for at least five years and meantime curbs and walks could be put in and all water and gas mains and laterals be laid so that when the time came for permanent paving no tearing up of it would be necessary thereafter. The northern extension of Brand Boulevard to connect with Kenneth Road and the easing up of the curve where it joins San Fernando Road; the Broadway extension to the north-west to provide a gateway from the San Fernando Road; the extension of Monterey Road west to border the Wash on the south as far as Brand and on the north, west of there; the extension of Patterson Avenue across the Wash and out to the San Fernando Road; the paving of Kenilworth Avenue from the new park south to Riverdale Drive—these are held to be the most important projects, which should take precedence of all others.

With the interest in these matters constantly increasing and all civic bodies working for them, it should not be a hard task to put them over. The city would be in a much better position to work out all these plans if it were under a freeholders' charter, consequently this subject is being favorably considered by many.

GLENN MARTIN PREDICTS MAIL SERVICE COAST TO COAST IN TEN HOURS

Glenn H. Martin, a prominent aviator and airplane manufacturer, who formerly conducted a flying school just across the river from Glendale, in Griffith Park, and who is well known to some of our citizens, predicted yesterday at a meeting of the Rotary Club in New York City that before very long mail would be carried from New York to the Pacific Coast in ten hours, by airplanes flying at a height of 20,000 feet. He said at this height no storms would be encountered, as the clouds are all below this level. Mr. Martin is now conducting a big airplane factory in Cleveland, Ohio.

DEFICIENT MOISTURE

INSUFFICIENT RAIN AND SNOW
PAST THREE YEARS CALL
FOR CONSERVATION

While the rainfall thus far is nearly four-fifths of the seasonal average, the storms have been so far between that the moisture has not been held as would have been the case had quickly recurring rains driven the water further and further down, says Mr. Patterson, pioneer resident of Glendale. He says that the ground is moist down only about two and one-half feet instead of eight or ten, as it should be. As this is the third season in succession with a light rainfall the water shortage is becoming more and more evident and careful conservation will be necessary for the coming year. Indeed the U. S. and state authorities are constantly urging such a policy. Another bad feature of the situation is the very light fall of snow in the mountains, only about two feet in all, so far, when eight or ten feet was the former average. The same man quoted above says he has seen four feet of snow on the Sierra Madre range north and northeast of Glendale in a single storm lasting two or three days. The melting of the heavy snows would fill the catch-basins in the canyons and provide irrigation water for all summer. This year the situation is made worse by the bare condition of the mountain slopes from the big fires last summer, the storm waters running off quickly as from a paved street. While there is no occasion for alarm, yet no water should be wasted.

HOUSEHOLD SURVEY

MINISTERS OF GLENDALE AR-
RANGE FOR IT TO TAKE
PLACE MARCH 17

Members of the Glendale Ministerial Association met for their regular monthly meeting Friday morning, when a report on the local "Near East Relief Campaign" was submitted by the chairman, Dr. E. H. Willisford.

Rev. Clifford Cole, chairman of the local household survey campaign, which is a part of the world evangelization movement made a report, and after some discussion a decision was reached to have the survey take place March 17th. It is expected that sixty to seventy workers will take part in the survey and thus go over the entire city in one day, visit every household and ascertain the church affiliations or preferences of its members. The returns will then be compiled and tabulated, the lists for each denomination being turned over to that denomination regardless of whether the denomination participated in the survey or not.

The population has so shifted in Glendale and so many new comers have bought homes here that the clergymen feel a systematic and thorough effort should be made to locate the strangers, greet them and invite them to the church home of their natural affiliations.

VINE STREET IMPROVEMENTS

Vine Street between Columbus Avenue and San Fernando Road has shared generously in the building activities of the past few months. A new five-room bungalow at 438, a two-story addition to G. C. Audet's house at 435, a three-room addition to Joe Audet's residence at 449, a new four-room house for Albert Mills at 475, the remodeling of the two-story building at 501 into an apartment house and the remodeling of a house at 516 are the principal improvements noted. S. C. Woodyard and R. A. Puffer have built garages.

INVESTS IN GLENDALE PROPERTY

E. W. Johnstone, who arrived in Glendale with his wife and five children from Philadelphia about two months ago and at once bought C. H. Darling's place at 530 Oak St., is so favorably impressed with Glendale that he has bought the residence property at 538 Oak and the lot in rear of his own home, facing on Colorado Street. He was in the grocery business in Philadelphia and soon after his arrival went to work in the grocerteria here.

CHICAGO PEOPLE BUY GLENDALE HOME

Mrs. Sarah Rice and daughter, Helen, are now settled in their new home at 454 Ivy, bought from Wilbur Francy. They came here from Chicago, seeking a milder climate, and fell in love with Glendale at first sight. Mrs. Rice is recovering from a severe attack of grip, suffered while visiting a sister in St. Louis, where she stopped on her way to the coast. Miss Helen is an accomplished player of the pipe organ. Mrs. Rice had lived in the same house in Chicago for 25 years.

RECOVERS STOLEN HORSES

John Seddon, formerly of 718 E. Acacia Avenue but now of Pasadena, where he works with a movie outfit, using several horses in his acts, was in Glendale this morning to recover four of the animals he said had been stolen from him early in the week. They were found wandering about the streets of the city and Mr. Seddon supposes the thieves turned them loose. They were picked up and taken to the Glendale stables where Mr. Seddon obtained possession of them.

JORDAN IS WINNER

Friday afternoon the first bicycle race was held on the newly constructed speedway at Central Avenue and Hawthorne Street. George Jordan was winner of the first prize of \$1.75, William Redmond took second prize, \$1. Harry Harding finished third, Francis Read fourth and John Judd fifth. All of the eight contestants finished the five-mile grind without a serious accident, although Redmond and Harding each took a bad tumble when their wheels skidded. The next race on this track will probably be held in two weeks.

CHRISTIAN SCIENCE PUBLISHING CO.

WINS ITS SUIT AGAINST THE CHRISTIAN SCIENCE BOARD OF DIRECTORS

(Special Service to Glendale Evening News)

BOSTON, Mass., March 6.—Trustees of the Christian Science Publishing Company today won their suit against the Christian Science Board of Directors to restrain the directors from interfering with the society. At the same time John V. Dittmore won his suit for reinstatement as a member of the Board of Directors.

John F. Dodge, as Special Master, found that the directors had no legal right to remove Lamont Roland from the Board of Trustees and that the charge against him was not sufficient in law nor made in good faith. It was held also that the directors had no power to discharge Dittmore and that even if they had the power the reasons assigned were insufficient and not made in good faith.

The suit involved the interpretation of two deeds of trust made by Mary Baker Eddy, founder of the church. The first gave to four trustees to be known as "The Christian Science Board of Directors," with certain powers, the land upon which the Mother Church was later erected. The other gave to three trustees the property of the Christian Science Publishing Society under certain perpetual and irrevocable trusts for the promotion of the interests of Christian Science, and required the payment of the net profits to the treasury of the Mother Church.

PRESIDENT WILSON ADAMANT

HIS REFUSAL TO SEE SIMMONS ON RESERVATION COMPROMISE IS PREDICTED

(Special Service to Glendale Evening News)

WASHINGTON, March 6.—"The President stands pat." This was the word from the White House today in response to the inquiries as to what the Woodrow Wilson attitude would be toward a compromise on article 10 of the league of nations covenant. Senator Hitchcock last night wrote to President Wilson asking him to receive Senator Simmons, democratic emissary who would lay before him a proposal to compromise on article 10. Democratic hopes of a compromise ratification were believed to have been dashed again when the White House let it be known that Wilson sees little need for discussing the treaty situation further with the administration senators; that he is adamant against any reservations except interpretive ones, and that he prefers to have democratic senators try to convert Senator Lodge rather than to try to convert him.

The president, it is understood, feels that he made his position clear to Senator Glass when the latter was at the White House some days ago and wonders why democratic senators think it necessary for him to reiterate. The position reported taken by the president was thought to indicate that he would decline to see Senator Simmons to discuss a compromise and would so inform Senator Hitchcock. If, in reply to Hitchcock, the president thus rebuffs those democrats who want to compromise with Lodge on the reservation to article 10, all hope of a ratification will finally be gone, democratic leaders said today. They said that the president's refusal to discuss the situation, if he should refuse, would anger some of his followers, but hardly to the point of causing them to revolt against his leadership.

THE LONDON SECRET TREATY

PRESIDENT WILSON'S REPLY TO ALLIED NOTE OF FEB. 26 SAID TO BE ITS DEATH KNEEL

(Special Service to Glendale Evening News)

LONDON, March 6.—President Wilson, in his reply to the allied communication of February 26, reaffirmed his position that the only settlement acceptable to the United States on the Adriatic dispute will be agreement by direct negotiation between Italy and Jugoslavia, or the settlement proposed December 9, according to information received here from French sources.

The president's reply was interpreted in some quarters as the death knell of the secret treaty of London. The note, it is understood, again makes it clear that President Wilson cannot recognize this agreement. Critics of the Turkish settlement, as announced by the Council of Premiers, declare the allies have decided upon the complete effacement of the Turkish empire and that its actual dismemberment has all but been accomplished.

WILLIAM G. McADOO

REFUSES TO ALLOW HIS NAME TO BE PLACED IN THE CALIFORNIA STATE PRIMARIES

(Special Service to Glendale Evening News)

NEW YORK, March 6.—Reiterating his statement that all delegates to the democratic national convention should go uninstructed as far as practicable, William G. McAdoo today telegraphed his refusal to B. F. Ewing, chairman of the Democratic State Committee, to allow his name to be placed in the primary of that state.

STORM MOVES EASTWARD

(Special Service to Glendale Evening News)

NEW YORK, March 6.—Moving steadily eastward the storm which has swept across the continent during the week was said by Weather Bureau officials today to be endangering shipping on the New England coast and as far east as the Grand Banks.

DEVELOPMENT ASS'N.

\$300 SUBSCRIBED FOR ELECTRIC
SIGNS ON BROADWAY AT FRIDAY
NIGHT MEETING

More than forty men, members of the Greater Glendale Development Association, assembled at the White Inn last evening and after partaking of a dinner took up the discussion of questions for the good of Glendale. L. T. Rowley, president of the association, presided, and Roy L. Kent served as secretary in the absence of Glen Ely, the regular secretary. Rev. E. H. Willisford was given a few minutes' time to speak on the success of the Near East Relief drive just closed. He said that the amount allotted Glendale to raise was \$3642 and up to date \$4000 in cash and pledges had been subscribed. E. U. Emery, chairman of the committee on road from San Fernando Road to Griffith Park, reported that landowners of intervening property had signified their intention of donating the land. Mr. Emery thinks there will be no trouble in getting a right of way across the river. Engineer Daley suggested that instead of building an expensive bridge a movable bridge be constructed that will be displaced at time of high water and then be swung around in position when flood is over.

A communication was read by the secretary from persons interested in establishing a landing place for airplanes in or near Glendale. It was suggested that such a place might be arranged for on the L. C. Brand estate in North Glendale.

A communication from City Manager T. W. Watson was read asking that the chair appoint a committee to participate in the naming of the new park at Kenilworth and Patterson. C. D. Lusby brought up the question of the need of a civic building. (Continued on Page 8)

BIRTHDAY CELEBRATED

Mrs. D. D. Haines of 212 West Lomita was pleasantly surprised Friday evening with a little family dinner party in celebration of her birthday. It was arranged by her sister, Mrs. Omans, who was the author of a beautiful and toothsome birthday cake which had the place of honor. Covers were laid for Mr. and Mrs. D. D. Haines, Mrs. Alfred Heckman and her daughter, Miss Katherine Heckman, Mrs. Straub and Mrs. Omans. A pink and white color scheme was carried out in decorations and appointments.

IDAHO PEOPLE BUY GLENDALE HOME

Dr. D. F. Rae and wife, who bought John H. Jackson's place at 316 Milford recently, are camping in the house till their goods arrive from Moscow, Idaho, where they had been living for many years. Dr. Rae was a practicing physician in Moscow, which is 90 miles east of Spokane, Wash., in the Idaho panhandle. They had been spending the winters in Los Angeles and vicinity for several years past and finally decided to locate on account of the climate, which proved very favorable to Dr. Rae's health, impaired by much hard work in his profession. They looked at property in Santa Ana and some of the beach towns before coming to Glendale, but this city suited them best, so they bought. They have a son who is a dentist in St. Marie's, Idaho, and a daughter teaching school in Kalispell, Montana. Mrs. Rae has a sister in Alhambra and another in Santa Monica.

GOVERNMENT LANDS FOR EX-SERVICE MEN

O. A. Creighton, who had been spending a few days in Glendale visiting various friends and fellow service men, returned today to Phoenix, Ariz., where he is recuperating from a long period of ill health following exposure at March Field, Riverside, where he was training for an aviator when the war ended. He is studying the land situation around Phoenix in relation to the government's proposed allotments to ex-service men. He says that some of the irrigated lands in that vicinity served by the waters of Salt River impounded by the Roosevelt dam bring as high as \$2500 an acre and about the lowest price for irrigated lands is \$1500 an acre. It is not these lands, of course, that ex-service men would get merely by living on them seven months, but soil equally as good which the government proposes to reclaim in the next year or two.

WEATHER FORECAST: Partly cloudy tonight and Sunday. No important change in temperature.

A MOVING TALE

PARTIES IN FOUR REAL ESTATE
TRANSFERS TO MOVE THE
FIRST OF WEEK

Dr. A. H. Guernsey of 306 North Cedar reports there is no particular news of his locality except that he is moving. Then he breathes a sigh of fatigue and explains that "we are all torn up and will be until next Tuesday," in referring to the things accumulated in a ten years' residence in the same house which have to be weeded out and sold or burned. Not even in the boom days, he declares, did property begin to change hands as rapidly as it is doing today, and one of the crosses of the situation is that with everybody moving you can never know over night who your neighbors are going to be. He says he has had such pleasant neighbors on Cedar Street it is a real grief to leave them. But when the First Methodist Church was moved to Kenwood and Wilson Avenue it was a great loss to him because it was taken beyond his walking limit, so, taking advantage of the general realty activity, and the fact that the church is not likely to move again during his lifetime, he decided to sell and follow the church. He had no difficulty in disposing of the Cedar Street property to a lady who has purchased it for a sister soon to come from Boston, Mass., and share it with her. Dr. Guernsey, in turn, has bought the home of Mr. Barstow, the realty dealer on North Jackson Street, not too far from the church of his affections. Mr. Barstow has bought the Wheeler place on Cedar, not far from the Crocker place, and Mr. Wheeler supposed that he had bought property that he liked, but he was a little slow in starting the escrow and a more enterprising buyer got the start of him. The procession of movers was therefore held up until he could locate another house, which he has done, and now all parties in the quartette of exchanges think they can change their abodes next week. Dr. Guernsey has witnessed most of the development of Glendale. He moved to Cedar Street ten years ago after a three years' residence in the Tropico district.

HOUSE OF DISTINCTIVE TYPE

The large new residence being erected for Barton S. Manbert on S. Columbus Avenue, near Maple, is of the Dutch Colonial type and makes a very attractive appearance. The interior, as well as the exterior, is of a distinctive type. The reception hall, from which the wide stairway ascends, is about a foot lower than the floor level and large closet for wraps opening from the north side, under the stairs. Every foot of space is utilized on both floors. Below are living room, library, dining room and kitchen, and a screen porch at the back. Upstairs are four bedrooms and the bath room, all opening into a large hall. There will be hardwood floors in every room and hall. A garage has been built in rear of the house. The lot has a frontage of 131 feet on Columbus Avenue. The Manberts hope to move in by May 1.

A HALE OCTOGENARIAN

BIRTHDAY OF S. S. NONAMAKER
CELEBRATED WITH A FAMILY
DINNER PARTY

A delightful family function which took the form of a mid-day dinner was arranged by Mrs. Oscar Von Oven and Mrs. W. L. Beals to celebrate the eightieth birthday of Mrs. Von Oven's father, S. S. Nonamaker, whose home is at 1315 Walnut St., where the dinner took place. Covers were laid for Mr. and Mrs. Nonamaker, Mr. and Mrs. C. A. Nune-maker of Whittier, Mr. and Mrs. W. L. Beals, and Miss Ruth Chenard, a niece of the honoree, from Los Angeles. All the families represented came originally from Fort Wayne, Ind., but the Beals, who have been spending the winter in Glendale and who have bought property at 1012 Mariposa Street, are now living in Ionia, Mich. They are to leave for Ionia a week from next Monday and will return to make their permanent home here next fall. In their absence their new home will be occupied by Mr. and Mrs. Von Oven, who will utilize the interval to choose a new home for themselves. Mr. Beals is a railroad man.

The octogenarian whose natal day was celebrated is quite a wonderful man, vigorous in mind and body who does not look to be a day over 60. For forty years before coming to Glendale he conducted drug stores in Chicago and Topeka, Kas.

The Roses Will Bloom In Your Garden

OVER THE TOP

GLENDALE EXCEEDS QUOTA IN "NEAR EAST RELIEF CAMPAIGN"

The following report which has been submitted by the local chairman of the drive will be of interest to many citizens who have this worthy cause closely to heart:

The drive in Glendale for Near East Relief has now reached \$4000. This district was asked to raise \$3642. Cash and pledges are still coming into headquarters, those in charge of the drive would not be surprised if at least \$4500 was subscribed in Glendale.

Practically every church and co-operating organization reached its quota, many doing much more.

While all have done well the Tropic Presbyterian church excelled them all, that church and section raising more than three times its quota. This was largely due to the personal interest and work of Rev. and Mrs. Rider, who spent much time in the house canvass.

In most communities two or more weeks are required to put over these drives. Glendale did the job in just four days—Sunday to Wednesday night. Those in charge of the local canvass believed in a short and intensive drive. Results show that this was wise.

Canvasses everywhere found the people courteous and ready and willing to respond.

A large number of people have not yet been solicited. This is due to people being away from home when the canvassers called. If any thus missed wish to make a contribution they can leave the same at any of the banks or with any pastor, or they can mail their check to Dr. E. H. Willisford, 217 North Orange St., or phone him, Glendale 918-R, and he

The Times

85 Cents Per Month

Rotogravure Art Section

Magnificent and Exclusive TIMES Feature

The wonderful new photographic process (the equipment for which cost more than the total investment in the average American newspaper) whereby The Times, alone among California newspapers, serves its readers every Sunday with a superb and beautiful art supplement.

All the interesting features of Southern California reproduced in sepia-toned effects, worthy of being framed.

Among the subjects to appear in near future:

Towers and spires of Los Angeles.

Photographs of the grand, great grand and great, great grandchildren of Southern California.

Photographs of historic relics in the Museums of Art (Exposition Park) and Southwest Museum.

Photographs of Southern California's industries, revealing unique and interesting manufacturing processes and showing how vast has become the industrial development of Southern California.

So varied and so numerous are The Times' features, some of which appear daily, some on Sunday and others at different regular periods of the week, that even old subscribers frequently write that they are constantly discovering new sources of interest. It is a delight and surprise to the new subscribers and a constantly increasing pleasure to older members of The Times' reader-family.

My commission expires April 24, 1922.

will arrange for some one to call and get the cash or pledge.

The chairman, Dr. Willisford, wishes to most sincerely thank all who have so willingly and ably assisted. He feels that Glendale has shown a most humane spirit.

The entire expense for the Glendale drive, including office help, advertising, publicity, distribution of literature, postage, long distance phones does not exceed \$25. Every penny of this amount is provided for outside of the contributions made by the people.

SAYS NO NEED TO TAME WILD GAS METERS

A bill is to be introduced in the New Jersey legislature requiring that every meter for measuring gas be fitted with a special device so that the index can be turned back to zero each time a reading is made by the gas company representative. A Philadelphia newspaper describes the bill and says it is an attempt to "tame the wild, wild gas meter," so as to prevent disputes over gas bills.

According to the American Gas Association, which represents a majority of the gas companies of the country, "the wild, wild gas meter" is not the most accurate measuring instrument of its kind made, but it is more accurate than 95 per cent of the timepieces we depend upon every day.

"The gas meter as invented by William Richards, in 1843," says the Association, "is with minor improvements the meter in use today. It is the most accurate measuring instrument of its kind made. It is more accurate than 95 per cent of all timepieces.

No delicate spring is required to make it go. Like the registering turnstile in common use today, the gas meter acts only when something passes through it. The clockwork is not set in motion and the indication hands can not move fast or slow except as more or less gas passes through the meter and makes them move.

"Public service commissions examine meters from time to time to see that they are accurate, and gas companies also do the same thing. This is an undertaking as big as it is important, for there are more than eight million meters in use in the United States. Obviously they do not need to be "tamed," for if they did our public service commissions would have time for nothing else and they would eventually give up the job in despair and go into the wild animal business for some real amusement."

CONSERVATION THROUGH ENGINEERING

The plea for constructive policies contained in the recent report of the Secretary of the Interior to the President deserves a hearing also by the engineers and business men who are developing the power resources of the country. The largest conservation for the future can come only through the wisest engineering of the present.

The conditions under which the utilization of natural resources is demanded are outlined by Secretary Lane, and the program recommended by him calls for the co-operation of engineer and legislator. To bring this power inventory to the attention of the men who furnish the nation with its coal and oil and electricity, this extract from the administrative report of the Secretary of the Interior is reprinted as Bulletin

705 of the United States Geological Survey and can be obtained by addressing the Director, United States Geological Survey, Washington, D. C.

PAIN, PAIN, PAYING

Johnnie having accidentally broken a pane of glass in a window was making the best of his way out of sight, but, unfortunately the proprietor stole a march on him. Seizing Johnnie by the collar, he exclaimed:

"You broke my window, did you not?"
"Yes, sir," said Johnnie, "but didn't you see me running for money to pay for it!"—Boys' Life for February.

**ONE TON AND
TWO TON**
Also the Famous NASH QUAD

**are in demand wherever rapid and economical
delivery are essential**

Throughout the country and in other countries as well, Nash trucks of many chassis models and varied body types are going about their daily labor quietly and efficiently.

They are carrying produce from the farms, making deliveries for dairies, groceries and bakeries. They are in use by all manner of wholesale houses. They are employed in doing all kinds of transfer work. They are in demand by coal and lumber dealers. They are used as fire patrols, for department store deliveries, by contractors, express companies and cotton growers. The Standard Oil company is operating many Nash trucks.

UNCLE SAM FAVORS THE NASH TRUCK

At the time the armistice was signed, there were more Nash trucks in the service of the government in France than trucks of any other make. Since the government was bending every energy toward efficiency at that time, this is a recommendation for the Nash truck that cannot be discounted.

**THE PERFORMANCE OF
NASH TRUCKS THROUGH-
OUT THE WORLD, THEIR
ABILITY TO FURNISH QUICK
AND ECONOMICAL TRANS-
PORTATION HAS PROVED
BEYOND QUESTION THEIR
VALUE TO ANY INDIVIDUAL
OR FIRM WITH A HAULING
PROBLEM TO SOLVE.**

DO YOU NEED A TRUCK?

Why the Nash Truck Is In Such Great Demand

Because they provide quick and dependable hauling service at a cost so low as to make them a real economy in any business.

The Nash truck chassis is built strong, the heavy channel frame is practically straight; excess weight is eliminated without sacrificing strength; they are built to make them exceptionally economical of tires; the spinning of the wheels is prevented by the M. & S. automatic locking differential which also saves fuel. Nash trucks are equipped with automatic governor, regulating the truck's speed and an electric starting device which encourages the driver to shut off the motor when the truck is standing, thus saving fuel.

Electric lights allow Nash trucks to work at night as well as by day.

In short Nash Trucks have all those superior mechanical features which time and the most severe service have proved best.

MORE HELP IN ROAD WORK URGED FOR WESTERN STATES

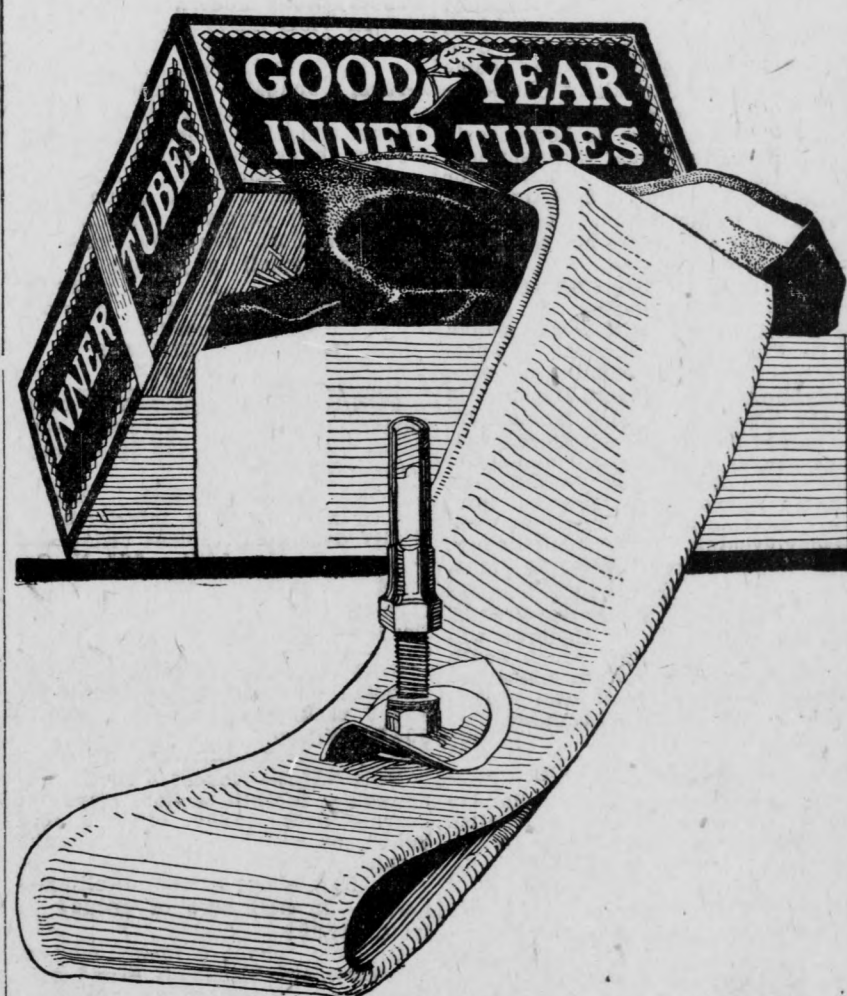

Speaking February 11 before highway representatives from Western States, Edwin T. Meredith, Secretary of Agriculture, stated his belief that in the Western States, where large areas of government lands are located, the Federal government should adopt a system of financial co-operation more liberal to the States than is the case in the rest of the country.

"I think we must recognize the fact that the existence of these large areas of government lands places these States in a somewhat different situation from the remainder of the country," said Mr. Meredith, "and that it would be only equitable for the Federal government to increase its percentage of co-operation over the present basis. I am also heartily in favor of continuing the appropriations for the building of national forest roads. These forests constitute a great natural resource and their preservation and development is a national responsibility which ought to be met in full measure."

Mr. Meredith advocated active continuation of present Federal and State co-operation in connecting state road systems with the systems of adjoining states in order that the working out of an adequate highway program for the whole United States may proceed in an orderly manner. He also advocated the continuance of work now going forward under the Federal Aid Road Act.

"As 1921 is the last year covered by the act," he said, "it would be highly desirable, in my opinion, for Congress to make provision as promptly as possible for the continuation of the work under the present system by an appropriation of at least \$100,000,000 for each of the four fiscal years beginning with 1922."

"He's worse than smallpox, mumps or itch.
Or spinal meningitis.
Run from the motorist when you find
He's got the 'Hurryitis.'"

WHAT IS INSIDE?

The inner tubes tell the story. If you haven't quality inside your tires, you can't expect service outside. Experienced autoists have learned this. If you would avoid a sad lesson, let us equip your car with the best tubes and thereby lessen your mileage cost. We fit any wheel. See us for tires, also.

Topic, "The Master's Call and Claim." 6 p. m., Young People's Meeting. 7:30 p. m., Speaker, Dr. Willisford. Topic, "True to the Colors." All services up to and including Easter Sunday will be characterized by an evangelistic spirit. Pre-Easter services March 24-April 4.

CHRISTIAN SCIENCE CHURCH
First Church of Christ, Scientist, corner Maryland and California avenues. Services Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject, Sunday, March 7, "Man." Sunday school at 9:30 a. m. Wednesday evening testimony meeting at 8. Reading room, 135 S. Brand Blvd., open daily except Sunday and holidays from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 7 until 9.

PRESBYTERIAN CHURCH
W. E. Edmonds, Minister. Sunday evening, 7:30, special Religious-Patriotic service. Subject, "Washington's Religion." A great musical program will be rendered, the numbers being given in pairs. Something different. The public invited. Morning worship, 11 o'clock. Sermon topic, "Walking Without Fainting." (Isaiah series). Sabbath school, 9:30. Endeavor meetings, Juniors 3 o'clock; Intermediates, 6 o'clock; Young People's Meeting, 6:30.

Musical program: Morning—Quartet, "Teach Me, O Lord" (Danks); Duett, "My Faith Looks Up To Thee." Anna May Williams and C. Clifford Riggs; Gospel Solo, Mrs. Fannie Marple Retts. Evening—Male Quartet, "The Land We Love"; "Clinging to the Rock of Ages" (Ogden); Baritone Solo, "Land O' Mine." Mr. C. Clifford Riggs; Violin Solo, "Andante Religioso" (Thorne); Miss Hazel Linkova; Mixed Quartet, "Columbia Song"; "Words of Grace" (Marks); Reading, "The American Flag" (Joseph Rodman Drake); Mrs. Zetta Gibbons; Duett, "The Battle Hymn" (Ackley); William H. Marple and C. Clifford Riggs; Male Quartet, "We'll Never Let the Old Flag Fall" (Kelly); "Only a Contrite Sinner." Gospel Solo, Mrs. Fannie Marple Retts.

FIRST METHODIST EPISCOPAL CHURCH
Corner Kenwood and Wilson. Rev. Clyde Monroe Crist, D. D., Pastor. Sunday school (graded) at 9:30. Prof. A. W. Tower, Superintendent. Preaching at 11 a. m. and 7:30 p. m. Class Meeting at 12:15. Rev. C. R. Norton, Leader. Epworth League at 6:30. Subject, "Life Lessons from the Book of Proverbs" (Prov. 20:1-15). Leader, Verne Wilson. This is a "live" meeting for young people. Intermediate League, 6:30. (Ages 12 to 15 years). Mr. L. C. Leeds, Superintendent. Brotherhood Meeting at 6:45, a place of prayer and counsel for men. Mr. A. G. Lindley, Leader. Morning sermon subject, "Wells Re-opened by Each New Generation." In the evening the theme will be, "Some Capitals of Christianity." The large vested choir under the direction of Miss Isabelle Isgrig will present the usual excellent music. The acousticon is installed for those whose hearing is defective. Ask the usher to direct you. Come to "a church that seems like home."

FIRST BAPTIST CHURCH
Ernest E. Ford, Pastor. "A Month of United Effort" will be the slogan at the First Baptist church. The pastor will preach on Sunday morning from the theme, "How to Measure Up to the Big Task." Some "goals" will be named for the united effort. Cottage Prayer Meetings will be held in the seven districts on Tuesday and Thursday evenings. Regular mid-week meeting at the church on Wednesday evening. Dr. F. J. Bradshaw, a Missionary from Western China, will speak at the Young People's Meeting at 6:30. Every one invited. At 7:30, Rev. V. V. Eddings will take charge of a trip through South America, showing lantern slides and telling the story of his own experiences in that wonderful country.

CATHOLIC CHURCH
Mass at 8 and 10:30. Sunday School at 9 a. m. Sermon in English at 10:30 service. Doors open for all. REV. JAMES S. O'NEILL, Pastor.

CENTRAL CHRISTIAN CHURCH
All services at the usual hours. The minister will preach both morning and evening. Topics, "The Biggest Job—Winning This World to Christ"; "The Hard Things of Life—Samson's Riddle." Special music at both services. This church will hold a revival meeting beginning March 21st, under the preaching of Rev. Clayton C. Root, Evangelist.

TUESDAY AFTERNOON CLUB
Notice is hereby given that at the next regular meeting of the Tuesday Afternoon Club, March 9th, the subject of real estate will be put before the club for discussion. At 3:30 the program will be presented by Zona Gale, short story writer, reading one of her own stories. Anyone admitted upon payment of 50 cents. Tickets for husbands' night dinner will also be on sale, \$1 per plate.

MRS. A. W. TOWER, President.

FILING OF NOMINATION PETITIONS

Nomination papers for a place on the Municipal ticket to be voted at the election of April 12th, 1920, must be filed with the City Clerk not later than March 23rd, 1920, at noon.

This statement is made orally that the last day for filing was March 12th.

J. C. SHERER, City Clerk.

CANDIDATE FOR CITY TRUSTEE
I hereby announce myself as a candidate for the office of trustee of the City of Glendale subject to the decision of the voters at the city election, Monday, April 12, 1919.

J. E. PETERS.

NOTICE

The influenza having subsided, the schools are hereby permitted to open Monday, March 8th. The cooperation of the general public is earnestly desired to prevent the further spread of the disease. Much can be accomplished by your help.

DR. J. E. ECKLES, Health Officer.

INCOME TAX BLANKS

Call at office of James F. McBryde, Room 18, 103-A North Brand Blvd., for income blanks. Experienced help in filling them out can also be obtained at same address.

CARD OF APPRECIATION

I wish to extend my hearty thanks to my former customers, the patrons of the Smart Shop, for their loyal patronage.

Mrs. Blanche L. Daigh.

Personals

W. Franklin Shinner of West Garfield Avenue has returned from a business trip to New York.

Mr. and Mrs. W. F. Wiley of 348 Salem Street are reported as quite seriously ill of pneumonia and under the care of a professional nurse.

Miss Clara Wright, who was ill for some time, has sufficiently recovered to resume teaching in the public schools of Los Angeles. She is now at Hotel Gray.

Mrs. Carol Hare, who is at the Glendale Sanitarium and has been very ill, is now improving and her friends hope she will soon be completely restored to health.

Chas. R. Phillips will have the Bentley-Schoeneman Company build him a modern five-room house on lot 4, tract 2292, Selvas de Verdugo. The estimated cost is \$4000.

J. H. Springer and family of 534 Oak Street will move the first of the week in with Mrs. Springer's father, J. H. Berry, at 237 South Orange, whose wife died recently of pneumonia.

The home of Myron Griswold at 1612 South Brand Boulevard is quarantined on account of the serious illness of influenza of Mrs. Griswold. She is better but is still confined to her bed.

A permit was taken out this morning for the erection of a brick store building at 129 South Central Avenue for John Lang, to cost \$7712. Bentley-Schoeneman and Company are the contractors.

R. M. Jackson of 344 North Maryland is himself again after a period of rest. Mrs. Jackson is entertaining for the week end visitors from Kentucky, Miss Barbara McMannus, and Miss May Taylor.

Wm. Prendeville and family, who have been living at 444 Ivy Street for the past six months, while the five-room residence at 335 Patterson Avenue has been building, will move into the new home next Wednesday.

W. H. Hopkins and W. M. Rickard of Lyons, Kas., tourist members of the Glendale Horseshoe and Tourist Club, who have been spending several months in Glendale, left for home on Thursday. They are making the round trip by auto.

Members of the Christian Endeavor of the Lutheran Church held their monthly meeting at the home of W. H. Bowman at 314 Mira Loma Avenue Friday evening. After the business session a social half hour was enjoyed in which games were played and refreshments were served.

Mrs. Blake Franklin of 398 West Wilson Avenue entertained Mr. and Mrs. W. H. Dorsey and Mr. and Mrs. L. H. Allen of Lacon, Ill., at the Midwick Country Club on Thursday afternoon for tea. The Midwick is near Alhambra in a very beautiful situation with which the visitors were charmed.

The joint meeting of the three women's societies of the First Methodist Church met Thursday for their all-day meeting, a business session of the Ladies' Aid taking place in the forenoon. A fine lunch was served at noon and in the afternoon the Foreign Missionary Society put on its study program.

Mr. and Mrs. A. B. Harp and family of 120 North Isabel Street, though they have been in Southern California only about two months, declare that this country is up to schedule and "about the finest place on earth." They came from Hutchinson, Kas., to benefit the health of Mrs. Harp, who is recuperating from a serious operation.

Mrs. Louisa Harker of 434 West Doran Street, who was taken to the Westlake Hospital where she underwent an operation two weeks ago, has been brought home and is making a fine recovery. Her friends predict that she will soon be out again and in better health than she has enjoyed for some time.

Miss Margaret Gregg, daughter of Mr. and Mrs. David Gregg of Central Avenue, is well enough to be up and around the house and is slowly gaining strength. Her sister, Miss Bettie Gregg, who was attacked by influenza and taken to a Berkeley hospital, has recovered and gone back to her university work.

The business meeting of the Intermediate Christian Endeavor of the Glendale Presbyterian Church which was held Friday evening was well attended and was followed by a social hour in which games were played and refreshments were served. Announcement of plans for the coming convention at Pasadena, to take place in about two weeks, aroused great enthusiasm.

Mr. and Mrs. M. P. Harrison, their daughter, Inez Harrison, their guest for the day, Mrs. Theodore Miltenberger, motored to Van Nuys on Thursday with Mrs. Lenox, who had been their guest for a few days. While there they made a tour of the blossoming orchards, a most lovely sight, and then motored to Whittier where they called upon friends. Mrs. Miltenberger, who is spending the winter with the Ed Lee family, expects to remain here until spring opens in Nebraska.

Her Right

Some men side-step the taking out of insurance by saying that their wives object to it. In most cases this is because of their selfishness, and in ALL cases because of their ignorance of the subject.

Every woman, while making the home and being deprived of her earning power has THE RIGHT to protection against the constant risk of her husband's death. Children have THE RIGHT to be brought up well educated. In the vast majority of cases there is no safeguard but life insurance.

OUT OF ALL PROPERTY WHICH MEN LEAVE AT DEATH 87 % IS INSURANCE MONEY.

Nothing compares to it in REAL value.

W. B. Kirk

Religion and Patriotism in a
—Great Musical Program—
—(Something Different)—

Mr. and Mrs. Thomas Hammond of 110 East Cypress will motor with a party of sixteen friends from Los Angeles tomorrow to the Santa Clara River, near Oxnard, for a picnic. Mrs. Hammond says it is a beautiful, picturesque spot which has been selected for the outing. Four machines will make the run of sixty-five miles.

It is the unexpected which happens. Mrs. William Griffin of 131 West Garfield Street had hardly hung up the receiver after assuring a reporter of the Glendale Evening News that she was a new comer and had no news before her telephone rang again and she received the delightful message that her daughter and son-in-law are coming to Glendale to live and want to secure living quarters right away. She passed the pleasant word along to the reporter and is now looking for a temporary abiding place for the young people who intend to purchase a home after they have looked around a bit.

111 S. Brand Blvd.
Phone Gl. 1000.

J. F. Stanford is having a very substantial garage built in rear of his residence at 451 West Doran. It is to cost \$500.

Mrs. Geo. T. Brewster underwent a very serious operation at the Glendale Sanitarium yesterday and her condition this morning is favorable.

Dr. E. H. Lyman and wife of Santa Barbara are in Glendale spending Sunday with Mrs. Lyman's parents, Mr. and Mrs. C. F. Parker, of 221 North Central Avenue.

C. E. Imler, who is here looking after the interests of his sister, the late Mrs. Anna L. Smith, is contemplating moving his family to Glendale in the near future.

Frank Berry, who was called here a few weeks ago by the illness of his mother, Mrs. J. H. Berry, of 237 South Orange, will start on his return home to Spokane, Wash., Monday.

Charles Ingledue, who came down with influenza a short time ago is better, but still confined to his bed, although he was allowed to sit up for a short time Friday. Mrs. Ingledue is pronounced "all right" and they hope soon to have the quarantine lifted from their home.

F. McG. Kelley of the Glendale Plant and Floral Company is quite concerned about the petty thieving that is going on about his place. He says a number of articles have been taken from his place while he has been moving. A few days ago he missed a number of rose bushes and other plants and last night a box of pansies disappeared.

Mr. and Mrs. Dawson and family from Minnesota who purchased the property of Miss Holm at 445 Oak Street are now in possession. Miss Holm and the Baisleys are now occupying the Westlake property at 353 Oak Street. Cecil Baisley, who was shot in the foot, is still confined to his bed. The cast was removed from his foot for a time but had to be restored.

E. B. Halliwell, son of W. F. Halliwell of 603 West Broadway, this city, his wife and family, left Friday for their ranch home in Marysville, Sacramento Valley, by auto, after a three months' visit here. They made the run from here to Fresno in eight hours, according to a postal message Mr. Halliwell has just received. They will make brief stops en route and expect to reach Marysville tonight.

The quarantine on the home of L. A. Hart of 729 East Raleigh Street has been lifted and all the members of the family are rapidly recovering from influenza. Mr. Hart, who was first taken and who suffered a relapse after his first recuperation because of having to act as nurse to the rest of his family, is now up and marking time until he can return to his business of selling automobiles in Los Angeles.

O. C. Schmidt and wife of Colorado Springs, Colo., who have been visiting R. M. Aleshire and family of 403 East Palmer Avenue for a few weeks, start on their return home Monday. Mr. Schmidt and Mr. Aleshire are brothers-in-law. The former is a manufacturing jeweler in Colorado Springs. His wife was suffering from heart trouble when they came and he says she has been greatly helped by her stay in Glendale.

Mrs. W. W. Hall of 331 Patterson Avenue is recovering from quite a long illness, heart trouble from which she has been confined to her bed for a number of weeks, during which her old friend, Mrs. James, of South Dakota, who has been spending the winter in Southern California, has cared for her. It has been a great comfort to Mrs. Hall, who will much regret her departure when she leaves, as she plans to do in about two weeks.

Friends of Miss Neva Veysey, who was principal of the Glendale Commercial School for several years, will be glad to know that she is back in Glendale again and is at the head of the school once more. Miss Neva Veysey gave up her work here about two years ago to care for her sister, who had contracted an illness while in the service as a war nurse. Her condition was hopeless and she passed away in December. Her death leaves Miss Veysey free to take up her school work again.

Dr. and Mrs. Clyde Monroe Crist have had the pleasure of entertaining this week Mr. and Mrs. J. Franklin West of Pasadena and Mrs. W. W. Gephart of San Diego, mother of Mrs. West, who is a guest in the home of her daughter, Mrs. West and Mrs. Crist were schoolmates and intimate friends during their school days in San Diego, and Mrs. Crist was a guest at a luncheon, which Mrs. West gave this week for her mother. Mr. West is superintendent of City Schools in Pasadena.

Guy Maxwell, who came up from Morenci, Ariz., last August to visit his parents, J. R. Maxwell and wife of 202 West Park Avenue, and help care for his grandfather, John Laws, of East Palmer Avenue, is still with his parents and awaiting a call to return to his work in Arizona as a smelter chemist. He says the low price of copper since the war demand ended has caused many smelters to suspend operations temporarily. He rendered good service during the war in his special line of work.

Why Has the Glendale Laundry So Large a Patronage?

Because we use only pure soaps and no harmful chemicals. The soft water and pure soap form a "dirt-chaser" that is unexcelled and when your linen comes from the hot "suds" and the clean rinsing water it has been freed from every vestige of dirt with the minimum of wear and tear on the garment.

Doesn't that sound good?

HATCHES COMING ON

POULTRY PRODUCTION BEING PUSHED AT RANCH OF MR. AND MRS. HARTMANN

Mr. and Mrs. H. A. Hartmann of 920 East Palmer are actively pushing poultry production. They have three filled incubators and six hundred eggs on the road to chickenhood, their first hatch being due next week. If their plans work out as they expect they will have a yard of about one thousand laying hens the coming season. Their stock is divided between Black Minorcas and Rhode Island Reds, the Minorcas being their choice for layers. They also have Toulouse geese, turkeys and Muscovy ducks. The geese are on pasture and very "little trouble," although they raise considerable lettuce for their consumption. They also say that the ducks are not objectionable if properly cared for. Theirs are kept in breeding pens, each of which has its cement lined pond two feet by six feet with a sloping approach to the water, and with this provided the ducks keep clean and get plenty to drink. They have a four-acre ranch.

Miss Myrtle Cox of Bosworth, Mo., who has been visiting numerous relatives in Glendale since last August, will start on her return home next Monday.

Mrs. H. D. Kirk of 725 East Windsor Road is entertaining guests from Chicago, Mrs. L. H. McCormick and little son, Jack, who have been spending the winter in Southern California.

Mr. and Mrs. F. W. Chatman and children, Hazel and Clifford, left Wednesday for their home in Moose Jaw, Sask., after spending the winter with Mrs. Chatman's sister, Mrs. H. W. Grontage of 312 North Belmont Street.

Roy Smith, superintendent of the Acme stores and a former resident of Glendale, was in the city today.

Miss Betty Cadd of 102-A East Broadway went to Pomona yesterday where she entertained the Woman's Club with readings and musical selections. Miss Cadd will remain over the week end stopping with friends, Mr. and Mrs. C. E. Johnson.

Robert W. Burns, 14-year-old son of Mr. and Mrs. W. A. Burns, who underwent a mastoid operation at the Westlake Hospital on the evening of February 26, is reported to be on the gain. Although he still requires the care of a special nurse, it is expected that he will be removed to his home at 132 South Louise St. within a few days.

WHO WON?

NO ONE WOULD KNOW WERE IT NOT FOR TIMING DEVICE

That the electrical timing device used at the opening contest at the Los Angeles Speedway was largely instrumental in its success is the general consensus of opinion among the drivers.

In a few straight-from-the-shoulder words, spoken in a characteristic manner in his quiet, unassuming way, Ralph de Palma, who is considered by many as being the greatest driver of racing cars that ever sat behind a wheel, summed up his opinion on this vital matter: "If it weren't for this wonderful electrical timing device, they'd never know who won the race." Continuing, he said: "It is absolutely essential that a perfectly accurate split-to-the-smallest-fraction of a second count be kept on every car participating in a racing event of any kind. In an event such as the opening of the new Los Angeles Speedway, where competition is so keen and such fast time is sure to be made, it is particularly important that the timing be automatic with no possible chance for error. Many hard-fought races have been lost through inaccurate or careless timing. Personally I am very glad and I think the same applies to all of the drivers, that the excellent Indianapolis Speedway equipment was used in Saturday's race. It relieves me of all worry about the accuracy and dependability of the timing. Inasmuch as the

A SIGN-O-SURE OF ALL EYES

The well known sign of the Automobile Club of Southern California bearing the legend "Temporary Road," with a hand pointing in the direction of the make-shift highway, is a familiar signal on Southern California roadways. The County Clerk of Kern County, California, with offices at Bakersfield, lately came into possession of one of these signs, and proceeded to put it to a new and unique use.

By a slight transformation he made the sign read "Temporary Road to Matrimony," and then placed it in the courthouse corridor, with the hand pointing to the elevator which takes passengers to the County Clerk's office, where the marriage licenses are procurable. He is now considering the advisability of installing another Club sign which reads "Warning! Go Slow—Danger" in front of the license window.—Touring Topics.

efficiency of the timing device depends solely upon its source of electrical energy, an infallible, reliable storage battery should be used. It pleases me to hear that the Prest-O-Lite Green Seal battery was used, as this particular type of battery is reputed as being dependable and powerful."

According to Mr. Blix, of the Blix-Hunt Company, local distributor of Prest-O-Lite Green Seal Batteries, the fact that they met with so much success in this event has made many new Prest-O-Lite friends and that their demand has increased considerably as a result.

Green Seal Says:—

"If you ordered a suit you'd naturally be dissatisfied if, when you received it, the goods were worn in spots—shiny and threadbare. You'd very likely refuse to accept it.

BUT—when you buy a 'new' battery—do you know how worn and threadbare the cells are? How long it has laid in stock filled with powerful acids that have steadily eaten away the life and energy of its cells?

You don't—UNLESS it's a Green Seal."

The newest battery with the oldest name. The battery that is born the day it is purchased. Filled with acid and charged for the first time the day you put it in your car. BATTERY OWNERS! No matter what battery you carry, our service is always at your disposal. Call for service that is REAL SERVICE.

Ford

THE UNIVERSAL CAR

Weak Links In a Strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enough, but the metal isn't there—the strong, durable Vanadium steel that goes into the Ford chassis and every Ford part. Ford parts are specially cast and heat-treated, each according to its use. Some require a hard, flint-like wearing surface, others need resiliency, and some need just "toughness."

Ford metallurgists have been studying those problems for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best results can be obtained only by the use of special formulas for different parts, and that honest Ford parts wear from thirty-five to one hundred per cent longer than counterfeits.

We carry complete assortments of genuine Ford parts for both passenger cars and trucks. And our garages are equipped to give careful, prompt Ford service—from minor adjustments to complete overhauls. Drive in, it's better to be safe than sorry. Come to the Authorized Ford dealers for service.

Insist on Genuine Ford Parts

It is interesting to note that automobile racing drivers, before entering a championship race, give the most careful attention to the "balancing" of their wheels. A racing driver always keeps in reserve an ample supply of spare tires mounted on wire wheels. He supplies the wheels to the tire company's representative who mounts the tires and inflates them to the proper air pressure. As soon as the driver has received his mounted tires from Good-year tire man he "balances" the wheels. The car is jacked up and a wheel applied to the axle. If the wheel moves it is not in balance and the racing driver corrects this by twisting a piece of wire around a spoke or by placing a metal washer around the valve stem, supplying just enough added weight to the rim of the wheel, that when again placed on the axle in different positions the wheel will remain stationary. A wheel that measures up to this test is said to be "balanced." The object in this is to avoid excessive tread wear and to gain uniformity of wheel revolution.

Final decision to run the Glidden tour to the Pacific Coast next September was reached during the New York show.

Essex a Real Economy Car

Essex has all of the light car's advantages of moderate price and saving of gasoline, oil and tires. But it is also a reliable car. Built by the makers of the world's record endurance car, the Hudson Super-Six, Essex staunchness reduces to a minimum the time lost in making adjustments and the cost of repairs.

Essex adjustable radiator shutters assure maximum motor efficiency and saving of gasoline in winter or summer. Danger of overheating is thus obviated and full motor service is obtained in even the coldest weather.

Essex is built to last. Therefore it has a high sale value after long, hard service.

Learn what true car economy means. See the Essex today.

Rough Roads for Wheels Are Smooth Roads for Passengers

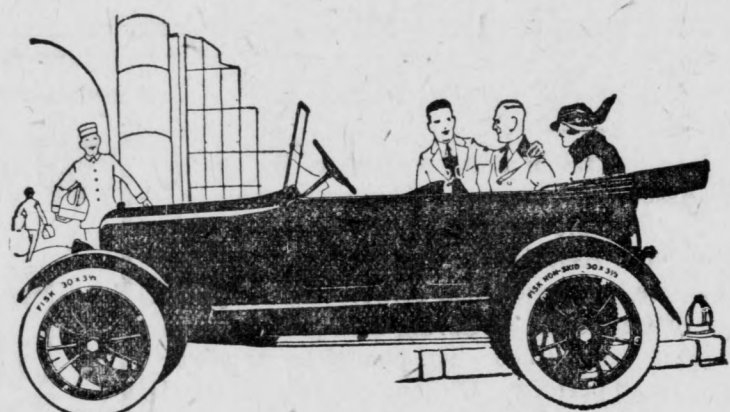

WATCH Overland 4 on rough cobbles or unpaved roads. The wheels follow surface inequalities, but the new Triplex Springs give car and passengers remarkable riding steadiness.

They give 130-inch Spring-base to a car of 100-inch wheelbase.

This makes for the gently

buoyant road action of a large, heavy car with the economy in upkeep, fuel and tires, and convenience of handling of a scientifically designed light car.

Auto-Lite starting and lighting, door-opening curtains and dash light give but a hint of the completeness and quality which characterize everything about Overland 4.

AUTO THEFTS

PRESIDENT BAKER OF AUTO CLUB TELLS OF CAMPAIGN TO STAMP IT OUT

That auto thieves made their first professional appearance in Southern California during the autumn of 1910, three years after the automobile industry had been declared one of the leading factors in America's commercial existence, was a part of the data made public yesterday by Fred L. Baker, recently elected president of the Automobile Club of Southern California, the world's largest motoring organization.

In his review of events during the past ten years, during which time President Baker has served as chief executive of the big club, he points out that the southern counties of California have led the country in automotive advancement in affairs outside of actual manufacture.

"Motor car stealing as a profession had not made its debut locally until 1910," says Mr. Baker, "and it is interesting to note that the first cars were stolen in Southern California at the same time that the head of the Pinkerton detectives was visiting this part of the state."

"When it was made known to Mr. Pinkerton that valuable automobiles were being stolen, not for joy-rides but as an actual business transaction, he at that time declared war on all such thieves, being an enthusiastic motorist himself."

"The Automobile Club at once stepped into the breach and began making legislative preparations to provide for heavy sentences in the cases of men who stole cars for gain. So difficult did it become to distinguish between 'borrowing a car' while its owner was absent, and 'stealing' a car, that the courts ever have been under more or less strain in meting out adequate sentences."

"In fact other states have really advanced further along these lines than has California, but from now on heavier sentences in the cases of auto thieves will be urged by the club, and every effort made by its board of directors and its theft bureau to stamp out a practice which has become pernicious in the extreme."

FORDSON TRACTORS

USED TO REPLACE ELECTRIC MOTORS DURING COAL SHORTAGE

The manager of the local Ford Plant, E. C. Graves, who has but lately returned from a trip to the East, has a new tale to tell of the power and value of the Fordson Tractor and a new use to which it was put. Mr. Graves says that during the recent coal shortage in the State of Indiana, the Nordyke Marmion Plant at Indianapolis found itself unable to cope with the situation confronting it. There was a pressing need of production, a great shortage of coal to secure the necessary power to keep up the production. Several means were suggested as a way out of the difficulty, one of them the use of 21 Fordson Tractors to replace the electric motors in the plant was adopted. By the use of these tractors the plant was kept running at full power and no loss was felt in the production.

In one instance four tractors were used to replace a 75-horsepower motor, which had been driving two shafts. The four tractors were so placed that two tractors were driving each shaft and the shafts belted together. The men operating this machinery said that they could not see any variation in the speed of their machines greater than that they had been accustomed to with the electric motor. The electric motor, according to the millwright's statement, was driving a full load but the tractors seemed to be running very lightly.

In another instance two tractors were hitched to the same shaft to displace a 40-horsepower motor, which had been operating six Norton grinders. The makers of these machines claim that it takes seven-horsepower to operate each grinder. The tractors handled the load very satisfactorily and maintained a uniform speed.

Several tractors were used to displace 20-horsepower motors and in no instance did a Fordson fail to hold up the load which had formerly been carried by the 20-horsepower electric motor. On the contrary, production was in some cases increased by the use of the tractors for the reason that the shafts were run a somewhat higher speed than when under electric power.

One of the tractors operated six days, 24 hours per day, with only a thirty-minute stop in which to replenish oil and fuel supplies and lubricate a few parts, and then after

being idle 24 hours resumed work again for six more days, at the end of which time the tractors were taken out of service. At no time was there any mechanical trouble, and no stops were made on account of the tractors. The average gasoline consumption was 11 1-3 gallons for every nine hours, and that of the oil was one quart for the same period of time. The oil was removed from each tractor every three days and replaced by fresh, clean oil.

The California Highway Commission has authorized the Highway Engineer to transfer the Highway Commission's convict labor camps in Mendocino County to Humboldt County, between Redwood Creek and Three Creeks.

California leads all other states of the Union in the number of automobiles owned in proportion to the population. There is one car to every 5.6 persons in this state.

THE "TEN MILLION" AGE

Estimated production of automobiles in the United States for 1920 is placed at 2,800,000 machines—passenger cars, tractors and trucks! Possibly this contemplated output will suffer downward revision before the year has closed as raw materials are becoming increasingly difficult to procure and prices therefore continue skyward.

Even if the factories fall somewhat short of this output there still will be an enormous number of new cars turned out. The day of Ten Million Automobiles is close at hand.—Touring Topics.

GOVT. DEPARTMENTS GET WAR TRUCKS

Motor vehicles can be turned over by the War Department to other government departments without charge, according to a decision rendered by the Department of Justice.

The effect of this decision will be to allow the transfer of nearly all the surplus vehicles from the War Department to the Postoffice Department, Treasury Department, Bureau of Public Roads and other government divisions.—Motor World.

DEVELOPMENT ASS'N

(Continued from Page 1)
ing for Glendale. He gave seven
great needs of the city as compiled
by City Manager Watson that such
a building would fill.

First—A comfort station and pub-
lic rest room.

Second—A reading room, bowling
alley, and shooting gallery.

Third—Headquarters for civic
organizations engaged in promoting
the growth and development of the
city.

Fourth—An office in the business
center for city business* and to sup-
ply information to the public con-
cerning city affairs.

Fifth—A display room for Glen-
dale exhibits.

Sixth—A conference room for
Boards of Directors and Committees
of Civic Societies.

Seventh—A small place where the
women and girls who are engaged in
work in the business center might
assemble for rest and recreation dur-
ing lunch hours.

All of the above might be taken
care of in one building, located as
near the business center on Brand
Boulevard or Broadway as a suitable
location could be obtained. The lo-
cation which appeals to us as being
best is one on the east side of Brand
Boulevard, south of Chaffee's store.
Strangers coming to Glendale on the
Pacific Electric see Glendale first at
that point.

There should be no differences of
opinion as to the necessity of the
above mentioned institutions. They
are all of such nature that they are
matters of public interest. The most
equitable way of taking care of them
is at a public expense and through
public support and regulation.

The people of Glendale might well
afford to build a handsome building
at that location, covering possibly 75
feet of frontage on Brand, with a
basement under the entire building
for the bowling alleys, shooting gal-
lery, and men's lavatories. The
first floor might well be devoted to
an office for the city, in which all
the business of the city would be
represented; where information by
maps and charts and reports might
be given the public. This might be
handled in conjunction with civic so-
cieties, such as the Greater Glendale
Development Association and the
Chamber of Commerce. Directors',
rooms, display room, and small as-
sembly room might be located on the
main floor or such rooms might be
located on the second floor, and the
space on the main floor used for other
purposes. On the second floor
should be built and equipped a la-
dies' rest room, with possibly an
open air court in connection.

After a discussion of this question
a motion prevailed that a committee
be appointed to investigate the feasi-
bility of the project. The commit-
tee appointed was A. G. Spohr, Roy
L. Kent, Ezra Parker, J. G. Huntley,
M. V. Hollister.

A motion also carried that the as-
sociation recommend to the Board
of Trustees that they act favorably
on the petition presented for the
opening and improving of the new
street proposed on West Broadway.

The association voted to become a
member of the state association of
Chambers of Commerce, Boards of
Trade and Improvement Associa-
tions. The secretary was instructed
to forward the membership fee.

Ezra Parker, F. H. Vesper and
Fred Deal were appointed a commit-
tee to report at a special meeting of
the association next Tuesday even-
ing at the City Hall, the names of
candidates for the office of City
Trustee. The members present at
this meeting will act upon the nomi-
nations made by this committee. It
is the desire of the association that
all citizens of Glendale who are in-
terested in the welfare of the com-
munity be present at this meeting.

After considerable discussion a
motion prevailed that electric signs
be placed at Broadway and San Fer-
nando Road and at Brand and San
Fernando Road. Members present
subscribed about \$300 and the bal-
ance \$400 needed will be raised by
popular subscription, the committee
in charge being A. G. Spohr, Fred
Deal and M. V. Hollister.

It was decided by vote to hold the
next meeting of the association on
Tuesday evening, April 6, and other
meetings on the first Tuesday even-
ing of each month thereafter. Thirty-
three members purchased, ordered
and paid for tickets at next
month's dinner.

Members of the association present
were: L. T. Rowley, R. L. Kent,
C. W. Kent, H. S. Webb, W. H. Ver-
ity, W. B. Kirk, H. A. Wilson, Dr.

ROCKY MOUNTAIN GOATS

"When not harried and shot to
pieces in his habitats, white moun-
tain goats prefer to go in herds of
from six to twenty individuals; but
solitary specimens or wandering
pairs are common," says Dr. William
T. Hornaday, writing of "The Rocky
Mountain Goat at Home" in the
February number of Boys' Life, the
Boy Scout Magazine. "In altitude
they are at home anywhere from
tidewater up to 9000 feet, both in
thin timber, at timberline, and above
the limit of trees where the rocks
are bare. Their ideal and best-loved
haunts are at timberline, and from
a thousand feet below to a
thousand feet above. In that memo-
rable September of 1905, all save
a few of the goats that we saw were
above timberline. There, goats are
visible at a distance of half a mile,
and under some conditions much
more than that. Usually, however,
we came upon our goats at rather
close range.

"Usually, we climbed up to them;
but in some cases we met them on a
level and parted on the square.

"In that clean limestone country,
containing no red or black earth, the
goats were pure white—almost as
'white as snow.' The first two old
Billies that we collected seemed to
me brilliantly white, as white and
fluffy in pelage as cotton. This is
the first thing that strongly im-
presses one who sees wild goats for
the first time. In countries where
there is much red earth or black
earth, it is said that individuals
sometimes are pale red, or dull
black, as the case may be. Mr. Phil-
lips tells of a black goat that he
saw, and of a blue one that for a
few hours greatly excited one of his
hunting companions.

"One of the first new facts that
we learned from the mountain goats
at home concerned his temperament.
Instead of being a nervous or wild-
ly hysterical creature like a deer,
which when cornered will instantly
leap over a precipice to certain death
the goat believes in the survival of
the fittest. Life on the summits
amid narrow ledges, abysmal
heights, snow, ice and avalanches
has taught him the value of calm
judgment and sober second thought.
When he is brought to bay on a
ledge, by men or dogs, instead of
leaping off to his death he stands
fast, faces his nearest enemy with
a pair of dangerous horns, as sharp
as skewers, and says:

"Well, it's your move! What are
you going to do next?"

"His calm attitude betokens a
philosophic mind and steady cour-
age. But at the crisis the goat can
fight, and fight fiercely, as many
foes have found to their cost. When
attacking, the goat lowers his head
until his chin almost touches the
ground, plunges forward and at the
right instant gives a fierce side-
swipe upward with his horns, to
puncture the vitals of his enemy
where they are unprotected. And
man or beast may well beware that
thrust."

THE SELECTION OF CANDIDATES

A very important step was taken at the meeting of the Greater Glendale Development Association last evening when a committee was appointed to look up suitable candidates for the coming city election. One member of the Association in speaking on the subject said he thought the time had come when Glendale should go out and find candidates for office instead of having men present themselves for the various places to be filled. The committee appointed have a very important duty to perform. Of course all the responsibility is not placed upon the committee so far as making the nominations, for as understood by the Association it is the duty of the committee to present the names of men whom, in their judgment, they think are fitted for filling the office in question and then it is up to the meeting which has been called for next Tuesday evening to in-
dorse or reject the names presented by the committee.

In the past one of the weaknesses of the citizens of Glendale has been that they are slow to offer opposition to persons whom they really know are not fitted to fill the position and then after the election is past and the men elected are filling responsible positions, the very ones who kept quiet before the election are the most apt to find fault with deficiencies in the office-holders. Everybody should feel free to treat candidates up for nomination in a courteous and business-like manner, but not to favor supporting anybody who is not qualified for the position he seeks.

As was stated at last evening's meeting Glendale is no longer a city of a few thousand inhabitants but has become a city recognized in the Southland with cities in a class from ten to twenty thousand and the affairs of the city must receive thoughtful consideration of every voter. Frank L. Muhleman, who has very ably served on the Board for four years, announced to the Association last evening that he would not be a candidate at the coming election and that this decision on his part did not mean at all that he was losing any interest in the welfare of the city but would always stand ready to help with everything for the best interests of Glendale. In his closing remarks he recommended that it would be of great benefit to our city to have a more modern charter, one better suited for the size of our city, instead of being governed by a charter that is for cities of the sixth class.
